

# Danger's Voice Certification Program

FY16

**The Overall Classification for this briefing is:**

**Unclassified // FOUO**

**Turn all** communications devices, cell phones, Blackberries and other personal electronic devices **to vibrate / silence mode** for the duration of this briefing.

# Agenda

-  Background
-  Purpose
-  Applicability
-  Methodology
-  Tracking
-  Award
-  Incentives

# Background

The Army's training challenge is to optimize, synchronize, and support training in schools, training in units, and self-development to produce forces ready to respond across the full spectrum of military operations.

Most Signaleers arriving to 1ID from AIT do not have the essential skill set required to perform their duty MOS. Additionally, units within 1ID have equipment and task unique to their organization, therefore, require specific skills essential to mission accomplishment.

# Purpose

Develop and implement structured training for baseline certification and establish the tools and guidelines to make 1ID Signal Soldiers the most versatile Signal/Cyber Professionals in the Army

# Applicability

 CMF 24, 25, 53

 E1-E8, W1-CW3, O1-04

# Methodology

- ✦ Structured to progressively enhance the skillset of the Signaleer by completing each level prior to starting the next level
- ✦ Each level provides additional and challenging training to Signaleers not obtained through NCOES
- ✦ Taught using a combination of SkillPort, MTC, BCCC, and DVSU instructed courses

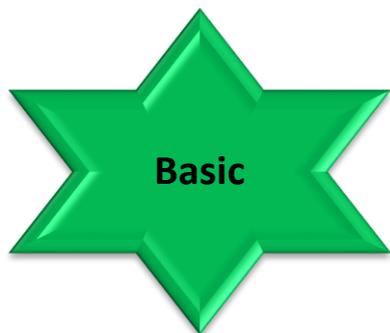

# Course Track

**Achieving Expert should be  
the ultimate goal for every  
Signaleer**

**Achieving Intermediate  
should be the minimum goal  
for all Commanders**

# DVCP Tracking

1

## BCTs Liaison:

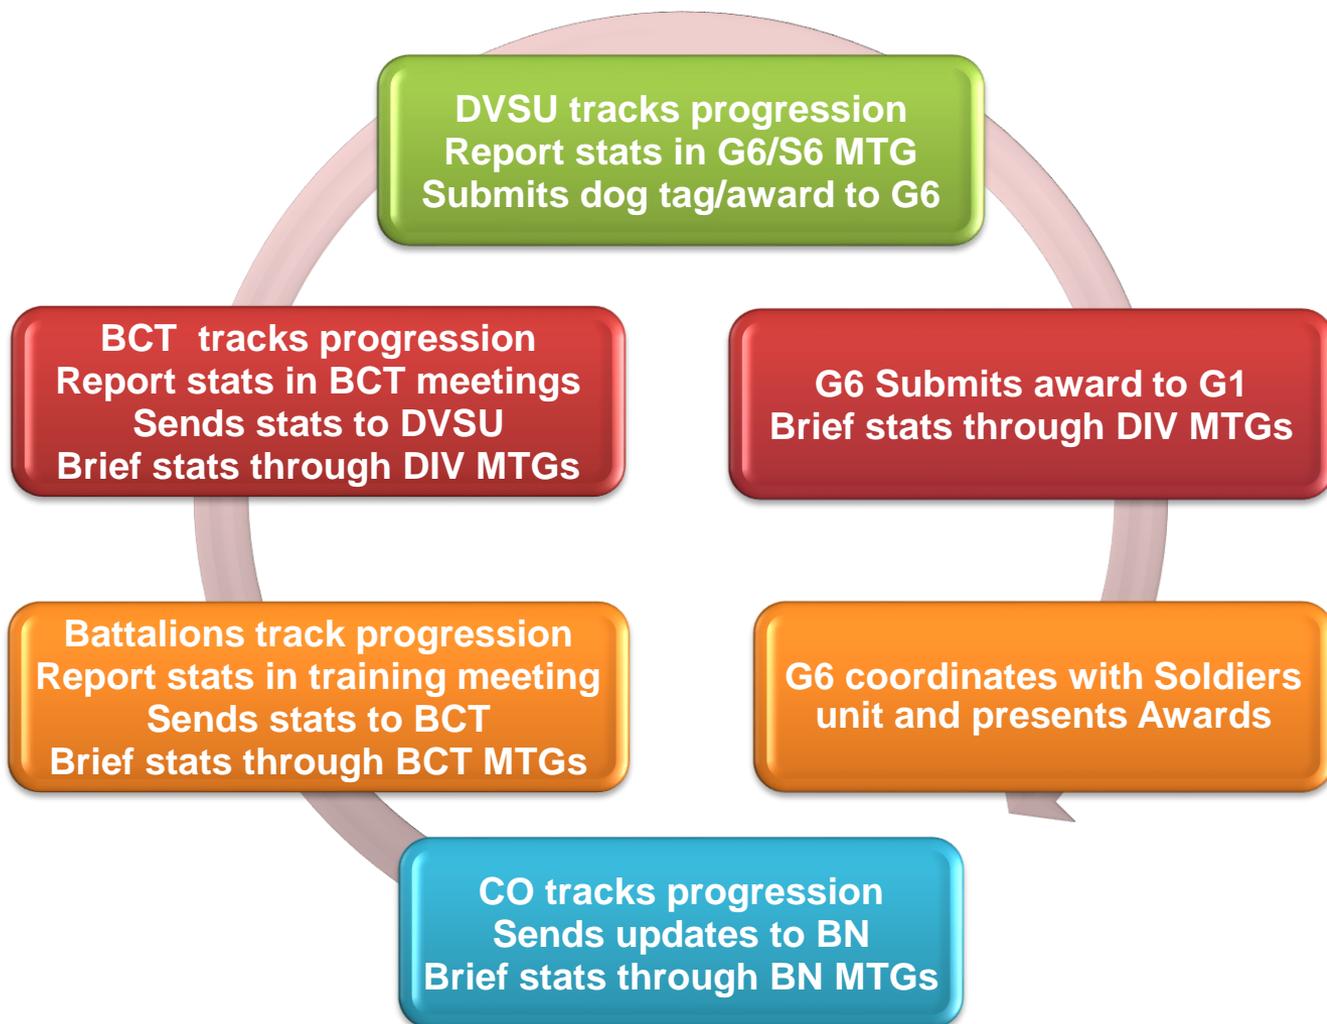

1/1: SFC Bellis

2/1: SGT Powell

1SB: SFC Davis

CAB: SSG Neuberger

DHQB: SFC Sylvester

\*DVSU maintains records for all Signal Soldiers in the program

# DVCP Award Description

1

Basic level of training for Signaleers and are skills expected of all Signaleers to know and master.

Intermediate level of training for Signaleers aimed to enhance the Soldier's current skillset and create a more robust Signaleer.

Advanced level of training for Signaleers intended to increase the Soldier's competency and provide their unit a more technically advanced Signaleer

Expert level of training for Signaleers designed to create a versatile Signal/Cyber Professional that can install, operate, and maintain their unit's network continuously and securely

**\*\*The goal for every Signaleer is to attain Expert (Gold)\*\***

*Duty First*

# DVCP Award

1

- ✦ DVCP will recognize personnel as they achieve each level
- ✦ Personnel are awarded a colored dog tag with logo to denote DVCP status at each level

# DVCP Incentives

- ✦ **Promotion Points:** All DVSU courses are in ATRRS enabling Soldiers to earn promotion points
- ✦ **College Credit:** Courses successfully completed will earn Soldiers' college credit
- ✦ **Awards:** Soldiers who achieve Bronze, Silver, or Gold levels of DVCP training will be considered for the AAM or ARCOM
- ✦ **Peer Pressure:** Due to the competitive nature of the US Army and Signaleers, all Signaleers will strive to perform to the best of their abilities to match or exceed their peers
- ✦ **Gold Standard:** Expert Level courses are not necessary for unit success, but beneficial to the unit to have Soldiers trained at this level and will further enhance the career development of the Signaleer.
