ACAP Has Got It Going ON!!!

What's new in ACAP

By Tai Moton-McIntyre, ACAP Counselor

ACAP is a happening place and has added more to the facility to better serve our population. To start, we have added new Education Counselors for those interested in using their G.I. Bill toward their education. There are also four tracks that the transitioning Soldier can take and they include:

-Employment Track: The Soldier separating and going straight to work, will have the opportunity to work on and complete a job packet.

-Education Track: The Soldier separating and going to school to further their education, will work on applying to school and identifying a major while learning how to use their benefits efficiently towards their education.

-Technical Track: The Soldier interested in attending a technical school following separation, will work on deciding which school best fits their education while working on applications and using their benefits towards education.

-Entrepreneur Track: The Soldier planning to start a business following separation, will discuss what starting a business entails as well as what it takes to obtain a business loan and construct a business plan.

ACAP serves the transitioning Soldier by tailoring their ACAP process to best fit the Soldier as an individual and their unique situation. The ACAP process is important for the transitioning Soldier, so that they are able to transition smoothly and effectively. When the Soldier completes ACAP they should leave with a plan for action following their military service.

ACAP strives to provide all of their consumers with the best customer service, by meeting their individual needs, while accommodating them to the best of our ability.

GAP ANALYSIS

A helpful Tool!!

The Gap Analysis is a mandatory ACAP document that is completed in the Transition MOS Crosswalk Class. This document is a helpful tool in gathering your thoughts in an organized manner to decide what direction you are going in next and what it takes to meet your goals. This document will help catalog and compare current skills and experience with desired civilian career goals.

MAXIMIZE YOUR ACAP EXPERIENCE

Remember...ACAP is here to serve all of your Transition needs. In addition to mandatory appointments stop by and schedule appointments with your counselor for:

- Resume reviews
- Mock interviews
- Career/education planning
- Transition resources/concerns
- One-on-one financial counseling.

Army Career & Alumni Program

ACAP Facts and Stuff...

A message from Education Counselors!!

The Fort Riley Education Counselors located in Building 212. We offer a variety of educational assistance including:

- Determining Career and Personal Goals
- Answering questions regarding the differences between the Post 9/11 GI Bill and Montgomery GI Bill
- Assisting with locating schools in a desired location
- Completing a comparison of academic institutions
- Compiling a list of schools with desired majors/programs
- Researching admissions and application requirements
- Proofreading entrance essays
- Locating transcripts
- Applying for Financial Aid
- Locating and applying for scholarships

The Education Counselors conduct a 2 day workshop designed to assist Separating Service Members to identify what types of school/programs are right for them. In addition the workshop provides a short career assessment tool to help determine what field the student should be pursuing based on his/her career goals and personality traits. At the end of the workshop, students will have created a PIN in order to complete the FAFSA Application and been provided with a list of website resources as well as a list of current scholarships. The plan is that students will have a well rounded idea of what it takes to not only get into school, but to obtain their ultimate educational goals.
