Calling Military Veterans!!!

If you want to work with an industry leader, Verizon is the place to be! Verizon was selected #10 on the GI Jobs Best Military Employers and #1 in our field. At Verizon, we value the ideas, enthusiasm, and ambition that you bring. Working on our network means that you are tapped into a company that owns and operates the nation’s most reliable network. We need your knowledge, your energy and your ability to deliver when it really matters.

Cell Tech Military Program

We have developed a 5-week training program that will give you the opportunity to understand how our cell and switch sites operate while receiving comprehensive hands-on experience supporting our Network Operations’ teams. You’ll learn from the best minds in the industry and have a unique opportunity to use your knowledge and skills in an environment dedicated to maintaining industry superiority. You will be introduced to useful tools and resources that will help you grow both professionally and personally throughout the program. Upon completion of the 5 week training program you will be assigned to support a specific region with your new skills! Here are just a few things you will be exposed to during your training:

- Network Architecture Overview
- Core and Job Specific Technical Training
- Market Specific Training
- Lead Technician Mentoring
- Tools and Test Equipment Training
- Network Operations Center and Network Repair Bureau

So, if you have an appreciation for technology, wireless devices, and/or network engineering, apply now!

Full time opportunities are available in any one of the following areas:

- Cell Technician

To be successful you’ll need:

- Relevant military experience, equivalent special electronics training, or equivalent work experience is required.

Cell Tech

- Intermediate training in at least 3 of the following areas: data communications, digital communications, operating systems and applications, telecommunications, computer support, project management, and/or power.
