

DPTMS Plans and Ops Vision

VISION: Garrison Staff capable of anticipating and synchronizing current and future operations with customers (Div, D-Rear, MSE) and local, regional, state and federal organizations (IMCOM, ARNORTH, FEMA, DHS).

TRENDS:

- Persistent Conflict - Increased Threat
- ARFORGEN
- Emergence of ARNORTH and HLS/HLD – Growth of AT Requirements
- IMCOM HQ Consolidation / RIST
- Expanded Focus with Greater Flint Hills Region
- Greater Interaction with MSE / D-Rear
- HSOC / Fort to Foxhole – Situational Awareness

Emergency Management
CLS 22, 75, 300

- Intel Analysis Fusion
- Virtual & Constructive AT/FP Exercises
- Vulnerability Mitigation (perimeter sensors, food, water, transportation)
- Strong Regional Partnerships (Lessons Learned, Exercises, Conferences)

Operations
CLS 300

- Aligned Staff Organization based on IMCOM HQ/RIST
- Keeps pace with SGS/G3/G5/G7/MSE/Rear D
- Surge capabilities based on ARFORGEN model

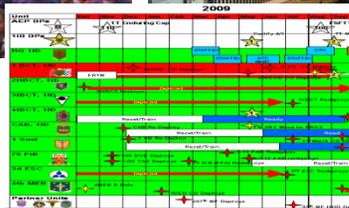

D-FROC
CLS 300

- HSOC Capable & Reach Back
- JIIM COP
- Shift Resourcing to support MSE
- Situational Awareness -- ATHOC

Deployments & Mobilization
CLS 301

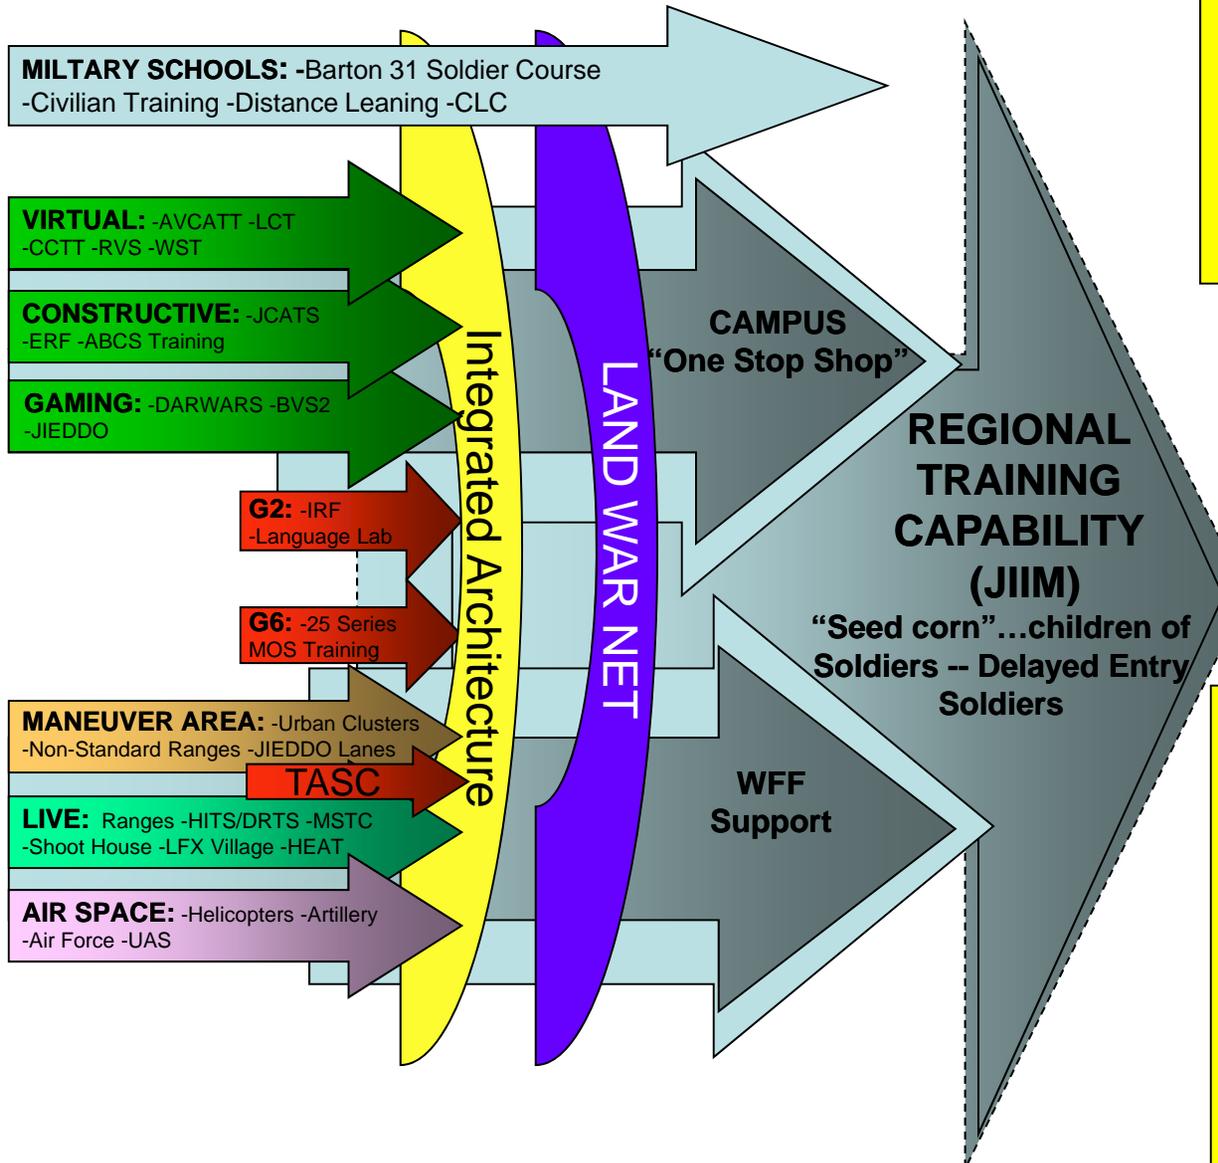

- ARFORGEN Focus
- Technology enablers reduce demands for centralized deployment actions
- Mobilization shifts to "cold" status
- Integrate Funston with WLC

Force Integration
Not supported by CLS
-Migrate to MSE?

TRAINING VISION 5 to 7 YEARS

VISION
Live, Virtual, Constructive, TADSS and Gaming capability that create training conditions to portray the current operational environment (COE) that enable CMETL/DMETL training to support the ARFORGEN and MODULARITY construct.

- TRENDS**
1. Virtual CTC's (HITS) -- synthetic training
 2. MTT's vice TDY's--Exportable TRADOC
 3. Merging Gaming Tech with Constructive & Virtual Simulations – Squads, Plts / Leader Development
 4. Distance Learning & Military Schools – Army Training Network (ATN)
 5. AT/FP exercises in Constructive Simulations
 6. Support regional users, RC/NG/Law Non-Standard LFX Ranges (OMA-GWOT)
 7. Enforcement/ROTC/BSA...
 8. More Urban -- More Precise
 9. More Digital -- More Precise

Vision – MAAF

VISION

Posture MAAF to execute full range of airfield services in support of the 1st CAB and regional partners. Mature facilities, services and airspace to support future missions.

Operations

Diamondback Assault Strip

Marshall Army Airfield

FUTURE TRENDS

- *Airspace/Airfield congestion
- *Increased DoD/civil Ops
- *Fixed Wing Ops
- *Aircraft Reset -- 1-6 CAV/UAS
- *Train / Certify Military ATCs
- *Airspace Corridors
- *Expand MAAF to the East

Facilities

Sky Warrior UAS

C-27J Joint Cargo Aircraft

Aircraft reset

Kansas UAS Consortium

Airspace

250 Nautical Miles

KU UAS Research

Smoky Hill ANG Range

REGIONAL PARTNERSHIPS

Training

External Load

GSAB ATC Certification

Air Traffic Control

Army Radar Approach Control

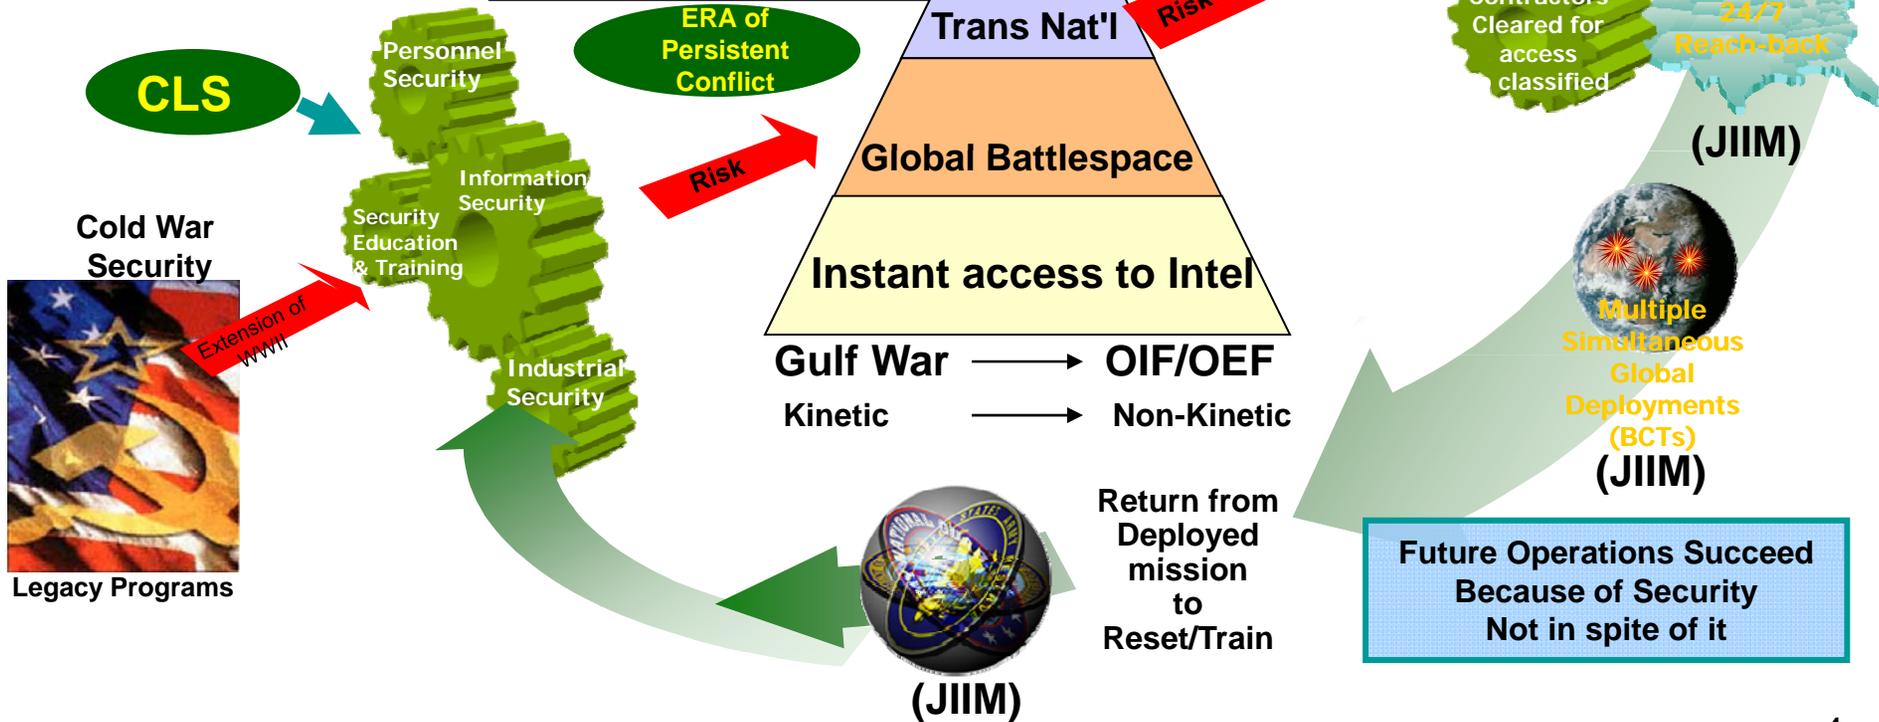

Vision – Security & Intelligence Division

VISION:

- Provide increased security services to all Soldiers, Civilians and DoD Contractors, and families in light of global events.
- Provide reach-back security services to all deployed Soldiers.
- Provide regional fingerprinting support.

Trends:

- Increased threats-increased security requirements
- Increased fingerprinting services
- Biometrics technology replaces fingerprinting
- Recruiting of Soldiers with questionable backgrounds causing clearance and deployment issues
- CONUS Security & Intelligence will Grow and mature; (HLD, ARNORTH, NORTHCOM)
- Joint, Interagency, Intergovernmental & Multinational Operations (JIIM)

Fort Riley Museum Division: Linking Future Visions with Historical Awareness

Vision:

Establish relationship and new museum that links Soldiers, veterans, the public, and institutions to enhance facilities, education, and awareness of Army/BRO/Cavalry heritage and traditions.

Trends:

- Unit/Soldier support
- Partnerships with other museums and CMH
- Technology for exhibit enhancement
- Museums co-located with other facilities for synergy and public access
- History in Division HQs & other buildings - not just museum

U.S. ARMY
CENTER OF
