
KETAMINE:

Warning!!! A new Drug on the streets!

What is Ketamine:

Ketamine, or ketamine hydrochloride, is a non-barbiturate, rapid acting general anesthetic used on both animals and humans. It has also been used in human medicine for pediatric burn cases and dentistry. It is being abused by an increasing number of young people as a "Club Drug" and is often distributed at "Raves" and parties.

Street names for Ketamine:

Some street names for Ketamine are: K, Ket, Special K, Vitamin K, Vit K, Kit Kat, Keller, Kelly's Day, Green, Blind Squid, Cat Valium, Purple, Special La Coke, Super Acid, and Super C. Slang for experiences related to Ketamine or the effects of Ketamine include, "K-Hole", "K-Land", "Baby Food" and "God".

How is Ketamine Being Abused?

Ketamine is a liquid and the most potent ways of using it are by injecting it intramuscularly or intravenously. There is a risk of losing motor control before the injection is completed, Ketamine can also be made into a table, or a powder by evaporating the liquid and reducing it to a fine

white powder that can be smoked or snorted. Because of its appearance, Ketamine is often mistaken for cocaine or crystal meth.

The Effects of Ketamine:

Ketamine produces a dissociate state in the user. Effects can range from rapture to paranoia to boredom. The user feels its hallucinogenic effects and experiences impaired perception. Ketamine commonly elicits out-of-body or near-death experiences, and can render the user comatose.

The effects of a Ketamine high usually last an hour, but can last for 4-6 hours, and 24-48 hours are usually required before the user will feel completely "Normal" again. The effects of chronic Ketamine may take from several months to two years to wear off completely. Large doses can produce vomiting and convulsions and may lead to oxygen starvation to the brain and muscles. One gram can cause death.

Ketamine is a legal drug, but only for Medical Purposes.

According to the Drug Enforcement Administration, Ketamine is an emerging drug in many states to include GEORGIA.
